Outreach is initiated by the Outreach provider agency. The AgingIS Data Assessment Form IS required.

One Outreach unit is generated by each "agency" initiated contact with a client. A follow-up contact made to confirm the initial information could be counted as one additional unit.

The Assessment takes place face-to-face. The Assessment may take place in the home, senior center, ADRC, or other appropriate place.

The informant is usually the senior adult, but their caregiver or a non-parent (NP) raising the children of their relatives can be the informant if it is more appropriate for the Assessment.

- 1. Page 1, top section. Client's name is the senior, care receiver or person with a disability. Never name children under age 18.
 - a. Enter the person's name, their address, and other demographics.
 - b. If the senior is socially isolated, complete the UCLA Universal Loneliness Assessment.
 - c. Complete the remaining questions including the Assessment of Needs.
- 2. Page 1, bottom section. For Caregiver & Non-Parent/GRG" section, *if applicable*.
 - a. Caregivers of older people may be family members, spouse, adult child, a friend, or a companion. Caregivers must be age 18 and over.
 - Do not include paid caregivers.
 - Caregivers must have assumed some caregiving role that they carry out on a regular basis.
 - Grandchildren, or children cared for by older relatives, must be age 18 or younger.
 - b. Make a special effort to have information available for Non-Parents/GRG raising children, such as the IDoA brochure for GRG, referral to the Childcare Resource Centers or other. Remember that Gap Filling can also be used in Non-Parent (NP/GRG) situations.
 - d. If the Caregiver and Care Receiver do not live together, a home visit & Assessment may be completed for both. This would generate two units of Outreach/Assessment, one under III-B and one under III-E.
- 3. Page 2, For Home Modification & Gap Filling" section, *if applicable*.
 - a. If the care receiver has dementia, refer the caregiver to Shawnee Alliance if for Dementia Gap.
 - b. Describe in detail the need for the Gap or Home Mod
 - c. Describe what actions were taken to meet the described need.
 - d. Agency staff need to sign and date the assessment.
 - e. NOTICE: the Senior/caregiver/NP/GRG <u>needs to sign</u> at the bottom indicating satisfied with Gap or Home Mod.
